The Biggest Fight of the Century! by Shriekin' Warrior

In the history of sports, dream match ups have been the discussion and here we have one of those match ups. The highest paid athlete in the world vs the UFC's biggest star!

What are the differences between these two fighters?

Money Mayweather just celebrated his 40th birthday on February 24th. He is eleven years older than his opponent Conor McGregor, who recently turned 29. What is the height and reach difference of these two fighters? Mayweather stands at 5ft 8in tall and he has a reach of 72in. Conor stands at 5ft 9in tall and has a reach of 74in which gives Conor the advantage when it comes to size.

Not only is it one of the most anticipated fights in boxing, it is also going to be one of the most expensive. The ticket price starts at \$500, the average ticket price is approximately \$3,855 and ringside tickets start at \$10,000. If you are like me and plan on watching the fight from home, the PPV will cost \$100. There is an estimated 4 million PPV tickets that should be sold. That is approximately \$400 million dollars made from PPV alone.

The fighters talk smack to each other in a prefight press conference.

My prediction is that McGregor will knock out Mayweather in the 5th round by hitting him with a left hook.

Post fight: Unfortunately Conor lost in the tenth round via TKO. Money Mayweather is now retired at 50-0 and he is one of three athletes that have grossed over \$1 billion. I really enjoyed watching the fight and it was worth it. Both men had a great fight and both men will go down in the books as legends & by the way my wallet is now \$10 lighter.

Conor and Mayweather punching each other in the face during the greatly anticipated fight.

Best Foundations for All Skin Types

by Karina Garcia

Oily Skin: The best foundation I have personally tried that works for my oily skin is called Too Faced Born This Way foundation. I have tried many foundations for oily skin, but this one is one of the best foundations that has worked for my skin. Other foundations that I have tried that are oil free leave spots after the foundation was used and they would usually dry my skin up a little too much. This Too Faced foundation has coconut water, it is full coverage, and it is also oil free. This foundation costs \$45 but it is worth it. I may not be a make up expert but this is the most amazing foundation I have tried for oily skin.

Other foundations that I have tried would be the Urban Decay All Nighter foundation. The Urban Decay foundation is very recommended, some downsides to that foundation can be that it might cause your skin to become scaly or it might cause your skin to break out. The Too Faced foundation on the other hand didn't cause any damage to my skin even after using it for a while. (continued on page 5)

For the year 2017 there was a lot of Jordan retro releases. The best ones had to have been the Royalty 4's that dropped in February. These four pairs of retros are dropping soon in the pictures around this article. The prices, release date, and colors are listed at the top of this page. I would prefer getting the Midnight Navy 11s dropping November 24th. The reason for this is because they are very good looking and won't be hard to match with many things. Also because they STUNT on everybody. These shoes only drop every so often and when they do they tend to go off the shelves faster than other shoes so I recommend to get there before everyone else! These four pairs of shoes will be more valuable the older they get as long as kept in good condition.

State Fair Crisis

Due to the accidents on the rides at many amusement parks The State of New Mexico is concerned because they don't think they will have enough customers because the public may fear

the rides failing or customers flying off the ride. Many rides have been breaking down in other states and people have fear of getting on the rides. Although the New Mexico state fair has many more attractions other than the rides the creators of the state fair fear the decrease in customers. They were thinking about dropping the pricing for the ride tickets so people could buy tickets, and they could earn more money. The state fair event creators have talked to the news and said that security will be improving due to the accidents of other amusement parks. They will have a lot more employees monitoring and checking the rides and belts of the rides. Even though the state fair is almost here I recommend having precaution, and having the employees check your belt twice before starting the ride. -Karina Garcia

This picture was taken after the accident at the State Fair of Ohio. The seats of the fire ball were not set up correctly and some of the riders ended up flying off the ride

Dry Skin: The best foundation for dry skin, based on reviews, would have to be the Milk Sunshine Skin Tint foundation. I have not personally tried this foundation due to my oily skin, but this foundation has a lot of good minerals that help your skin get hydrated over time. It is full coverage, light on the face, and it contains glycerin which provides great hydration, and it does not cause scaly or dry skin after applying the foundation. It is said to last up to 24 hours. The price on this foundation is \$42. It is expensive, but I would recommend it because of the minerals it contains and the coverage it gives dry skin. -Karina Garcia
